Claim 21 (New): A method for attaching a hair fastening and decorative device for securing strands of hair in place to hair, comprising the steps of:

providing in combination: a hair fastening and decorative device for securing strands of hair in place comprising in combination: a flexible, resilient anchor ring for encircling and holding strands of hair; and a decorative device including an ornamental unit having a front and a back attached to a base support unit having a front and a back and a hook removably attaching the base support unit to the anchor ring,

encircling a the hair of a user with the anchor ring, and  
attaching the hook to the anchor ring.

22. (New): The method of affixing a hair fastening and decorative device to hair of claim 21, wherein the hook on means comprises a reversed R-shape configuration removably attached to the anchor ring.

23. . (New): The method of affixing a hair fastening and decorative device to hair of claim 21, wherein the hook is an inverted J-shaped hook in cross section.

24. (New): The method of affixing a hair fastening and decorative device to hair of claim 21, wherein the back of the ornamental unit is removably attached to the front of the base support unit with a snap.

25. (New): The method of affixing a hair fastening and decorative device to hair of claim 21, wherein the snap comprises a pair of flexible T-shaped shafts located on the back of the ornamental unit which removably engage a pair of holes located on the back of the base support unit and passes there through.
